## Second Ethernet Device Driver Important Note

Before you begin installation of your Ethernet adapter card:

1. Make sure you have the correct model. The correct one is the **Intel EtherExpress™ Flash32 Adapter (part number EILA-8225)**.

Please make sure you have not ordered EILA-8215. This product is not supported with this device driver.

If you do not have the correct board, or if your board is defective or needs replacement, contact Intel customer support at **1-503-629-7000**.

2. Once you have verified that you have the correct board, disregard the hardware installation instructions that shipped with it. Instead, follow the instructions in the *Intel EtherExpress Flash32 LAN Adapter for Indigo<sup>2</sup>™ Installation Guide*, which shipped with the Silicon Graphics, Inc., software device driver (part number SC4-EISAE++D-1.0).

For Silicon Graphics® support, call **1-800-800-4SGI**.

3. Please note that *only a single (1)* Intel EtherExpress Flash32 Adapter Card is supported in an Indigo<sup>2</sup> system.

Silicon Graphics is a registered trademark and E++ and Indigo<sup>2</sup> are trademarks of Silicon Graphics, Inc. EtherExpress is a trademark of Intel Corporation.
