
Software Information for Indigo² IMPACT™ Users

Silicon Graphics® highly recommends that you install:

- IRIX 5.3 for All Indigo² IMPACT (part number 813-0119-010)
- Patches 1099 and 1157 (part number 813-0505-001)

on Indigo² Maximum IMPACT™, Indigo² High IMPACT™, and Indigo² Solid IMPACT™ systems.

New Indigo² Maximum IMPACT, High IMPACT, and Solid IMPACT systems are pre-installed with IRIX 5.3 for All Indigo² IMPACT and Patches 1099 and 1157. This IRIX release supports all system configurations of Indigo² IMPACT. It replaces IRIX 5.3 for Indigo² IMPACT (part number 813-0119-009), Patches for IRIX 5.3 for Indigo² IMPACT (part number 813-0461-001), and Patches for IRIX 5.3 for Indigo² 250 MHz R4400 (part number 813-0466-001).

If you are currently running XFS™ or plan to add XFS filesystems to your Indigo² IMPACT system, please contact your local Silicon Graphics service provider for information on specific installation procedures.

Release Notes

Detailed information for the software can be found in the release notes on the software CDs.

Questions

For any questions concerning installation or use of software, contact your local authorized Silicon Graphics service provider.
