Dear Silicon Graphics Customer,

Thank you for your purchase of IRIS[®] ATM for CHALLENGE[™] and Onyx[™], one of Silicon Graphics' highest performing network solutions.

This product includes 2 CD-ROM disks, each with a different version of IRIS ATM. For each system installation, you need to use only one of the disks. Select the one that is appropriate for each of your Silicon Graphics systems.

Install the IRIS ATM software from the appropriate disk; use only 1 of these disks:

- For IRIX 5.3, install IRIS ATM 2.0
- For IRIX 6.2 (or later), install IRIS ATM 2.1

CAUTION: IRIS ATM 2.0 is not compatible with IRIX 6.2, and IRIS ATM 2.1 is not compatible with IRIX 5.3 or 6.1. Be sure to install the correct version of IRIS ATM.

If you encounter any problems, please contact the Technical Assistance Center, at 1-800-800-4SGI, in the U.S. or Canada, or your local Silicon Graphics Customer Support representative.

Sincerely,

A handwritten signature in black ink, appearing to read "J. D. B.", with a long horizontal stroke extending to the right.

Product Manager for High Performance Networking, Network Systems Division
