
Software for Indigo² IMPACT™ Systems

Patches 1406 and 1447 (on Patches for IRIX 6.2 with Indigo², Part # 813-0591-001) support the following Indigo² IMPACT systems only: Indigo² Solid IMPACT™, Indigo² High IMPACT™, and Indigo² Maximum IMPACT™ systems with R4400® and R10000™ CPUs.

Patches 1406 and 1447 are recommended for the optimal operation of Indigo² IMPACT systems running IRIX™ 6.2 (Part # 813-0469-001) or IRIX 6.2 with Indigo² IMPACT 10000 (Part # 813-0469-002). Note that Indigo² IMPACT 10000 systems are supported by IRIX 6.2 with Indigo² IMPACT 10000 only; these systems do not work with IRIX 6.2.

Patches 1406 and 1447 are also required for systems installed with the Indigo² IMPACT Channel Option (ICO) and with Indigo² IMPACT Presenter running IRIX™ 6.2 (Part # 813-0469-001) or IRIX 6.2 with Indigo² IMPACT 10000 (Part # 813-0469-002).

Note: IRIX 6.2 with Indigo² IMPACT 10000 Support requires NFS 6.2.1 or NFS 6.2 version 1.2.

Release Notes

Detailed information for each patch can be found in the release notes on the patch CDs.
